Hotel Holiday

During phase 1, we are welcoming you to the island for a hotel holiday. This means you can use all the hotel facilities and relax around the pool and on the designated stretch of beach edging the hotel. You must stay within the perimeter of the hotel for 14 days and, after a negative test on day 14, you will be able to explore the island.

A hotel holiday is for fully vaccinated guests

- Passengers must be fully vaccinated with a COVID-19 vaccine recognised by the Mauritian authorities. If a second dose of a vaccine is required to be fully vaccinated, this must be given at least 14 days before arrival. For the Johnson & Johnson vaccine, the unique dose should be done 28 days before arrival day. Passengers under 18 years of age are currently exempted from vaccination at this time. However, they will need to undergo a PCR test.
- Passengers must undergo a PCR test between day 5 and day 7 before their arrival in Mauritius. To travel to Mauritius, this test must be negative.

Testing during your stay

- Guests will have a mandatory PCR test on arrival at the airport in Mauritius. Depending of the duration of their stay, they will also have a test on day 7 and day 14 of their stay, which will be carried out in their hotel room. Beyond 14 days, guests are free to stay in Mauritius at a place of their choice if all PCRs are negative.
- On arrival day, guests should not leave their room until they have had confirmation of a negative PCR test. One or two meals will be served in the room. Guests will receive the result of their test by SMS or another means if the guest does not have SMS. If the result is negative, guests will be allowed to move freely within the hotel premises.

Length of stay

• Passengers must have booked, prior to departure, their entire stay in a certified hotel for a mandatory period, ranging from one night to 14 nights.

Social distancing during your stay

- Guests will be required to maintain social distancing during their stay while circulating around the hotel premises. They will be able to remove their mask at the beach or swimming pool and when seated at a table or at the bar.
- The housekeeping service in the room will be done in strict compliance with sanitary protocols.
- In order to respect the sanitary protocol, we will not be able to open all the restaurants.
- In the restaurant, there will be no buffet. Guests will be able to remove their mask when seated but must put the mask back on if they get up or go to the washroom.
- At the bar, during musical entertainment, seated customers may remove their masks.
- Watersports are allowed without masks. In the case of activities such as yoga and aquagym, a distance of two metres must be kept between each guest. According to the sanitary protocol, nautical motorised activities will not be available.
- The hotel gym will be open in compliance with sanitary protocols, and by prior appointment only.
- Hotel shops will be open, and the maximum capacity will be shown on the door. Guests must wear a mask within the shop.
- Nightclubs will not be operational.
- The spa service will be available except for the sauna and the hammam.
- The kids' club at Zilwa Attitude will be operational in strict compliance with sanitary protocols.

Mandatory documents to enter Mauritius

- Certified COVID-19 safe hotel booking with an approved hotel such as **Zilwa Attitude** or **Tropical Attitude**
- Negative PCR test result obtained 5-7 days before departure from the final point of embarkation
- Vaccination card
